

Organic Fly Fishing Decreed

During the 2006 albacore season thousands of anglers and their gear were subjected to random testing by the *Enforcement Committee of the True Secret Order of False Albacorian Monks*. Banned **steroids** were found in over half the anglers tested from New York and New Jersey. Most Georgia and Virginia anglers were guilty of using flies laced with **Viagra**. Hundreds of North Carolina fly fishermen were busted for spreading frozen glass-minnow chum loaded with in **AGH (albacore growth hormone)**. Worst of all, **every fly fishing guide** tested positive for high levels of **artificial testosterone!**

This scandalous desecration of our hallowed sport must be stopped. Effective immediately, the HEAD MONK has ordered the following:

- ***Anglers must fill a sterile cup upon entering and leaving marinas
- ***All flies will be made from organic, free-range, all-natural materials
- ***Fly rods must be made from pesticide and herbicide-free bamboo
- ***No lead-based paints may be used on fly eyes or boat lettering
- ***Only extra-virgin olive oil may be used in four-cycle engines
- ***Monks may seize, at their discretion, wines valued at more than \$25

If you Follow These Simple Rules
You Are Cordially Invited to Attend
The 621ST Banquet and Conclave of the
True Secret Order of False Albacorian Monks

Saturday, November 3, 2007, 6:00 PM

Harkers Island, NC
