### **The 528th False Albacore Unity and Togetherness Banquet**

—Co-hosted this Year by Monk Trump and Monk Hillary—

Saturday, November 5, 2016, at 6:30 PM

Just when tarpon fishing had begun to wane in the Florida Keys, and when bonefishing had become passé, along came the false albacore to save the day! It is now clear to all Americans that the albacore is the fish that saved American flyfishing.

After the recent Hurri**Kaine** Matthew, most people wouldn't have bet a six **Pence** that the annual celebration of America's greatest fish would take place. After a unanimous vote, the Monks declared that the annual banquet will go on uninterrupted! Monk Trump said it best: "We are stronger together when we all protect the magnificent false albacore." Monk Hillary added: "It is the fish that made America great again."

The Monks have succeeded as an Order for more than 500 years because of their motto: "Never political, always united." This unity is shown in the long, enduring friendship of Monk Trump and Monk Hillary, co-hosts of this year's banquet. During their decades-long friendship, Monk Hilary has never deleted a single email from Monk Trump from her private server. Monk Trump has also inspired Monk Hillary by his life of humility, poverty and chastity. Working together, Monks Hillary and Trump have pledged to work for full employment of all fishing guides and to produce solar-powered fly fishing boats for all Americans.

Unfortunately, one monk has been banned from this year's banquet—Monk Ras **Putin**. Putin was recently caught hacking Monk Hillary's email server, and stealing fly patterns. While everyone else will be "**Putin** on the Ritz" at this year's banquet, Ras Putin will be eating three-day-old shrimp in the monastery.

As always, all politicians—local, state and federal—will be turned away at the door. This banquet is paid for by the Monks Politeness Action Committee, "Albacore PAC – 2016."
